UNITED STATES INTELLIGENCE BOARD

MEMORANDUM FOR THE UNITED STATES INTELLIGENCE BOARD

SUBJECT: New-Type Soviet Surface-to-Air Missile System

1. The attached memorandum from the Chairman, Committee on Overhead Reconnaissance forwards an assessment of the development and deployment of a new SAM system in the USSR, an analysis of those collection means available for additional and more comprehensive coverage, and a specific recommendation in paragraph 14, thereof, for USIB consideration. Because of the sensitivity of the subject, this paper is being made available to Board members through their COMOR representatives.

2. This subject has been scheduled on the USIB agenda for discussion at the 27 March meeting in restricted session. COMOR will be prepared at that time to give Board members a detailed briefing on the subject if desired.

Executive Secretary
